

7 - Care for others
Lesson Plan
(Ability level: intermediate to upper-intermediate)

Grade level: Primary 1–2
Time: approximately 40 minutes

Suggested Activity 1: Debrief (approximately 10 minutes)

- T reviews the video content with the class. Ask questions such as, “What was the boy’s name in the video?”, “Grandpa asked Chris to think of a question the next day he went to school. What was the question?”, “What did Chris do to help?”
- If applicable, students may choose to give a verbal answer or mime it out (e.g., picking up Rose’s eraser)
- T may sketch on the blackboard (e.g., a boy that looks like Chris, an old man for grandpa), mime (e.g., pretend to look for the glasses), or use realia (e.g., use a mop to demonstrate the need to flip the chairs).

Suggested Activity 2: How can I help? (approximately 20 minutes)

- (T takes pictures of places in school, prints them out, and pastes them to the blackboard. 6 to 8 pictures would suffice. This is to give students a sense of familiarity when they brainstorm for the activity.)
- Ask students if they have given help/ been offered help/ witnessed an act of kindness in any of those places. Students may suggest other places if they wish. Give students a minute to contemplate their answer.
- Put students into pairs or small groups to discuss their answers.
- Invite students to share their experience. If there are few answers, suggest scenarios (e.g., for the schoolyard, there might be a basketball on the loose that students could help pick up; or, in the playground, there is food packaging on the floor that might cause someone to slip). Ask students to think of the question, “How can I help?”

Suggested Activity 3: “I helped!” (approximately 10 minutes)

- Distribute and explain the worksheet (see Appendix).
- Display good work in the classroom after marking students’ work.
