

Title: Learning with Games

Target: Teacher and parent in senior primary

Abstract of the Movie:

The teacher of Fung Kai Innovative School introduced some old games, such as a clapping game, playing with beanbags and paper dolls, a jumping game, hopscotch, playing marbles, and playing with wind-up robots, etc., which can be played by teachers or parents with children. Through game playing, teachers or parents and children can communicate in English mutually. Students would also write down their feelings and thoughts in simple English after the games.

Advice for the Post-movie Activities:

Teachers or parents can try the old games introduced by the teacher of Fung Kai Innovative School together with the children. They should try their best to use English for communication during the game to enhance their confidence in English. Students can also write down their feelings in English after the game. (See an example in the attachment)

Name of Game: Hopscotch

Partner(s) in Game: My elder sister, my friend Peter

(Stick a photo of the game in this box.)

How do you feel in game? I feel excited because I win the game twice.
