

**Title: How to Use Kahoot in Kids' Learning
(Let kids practice English cheerfully with Kahoot)**

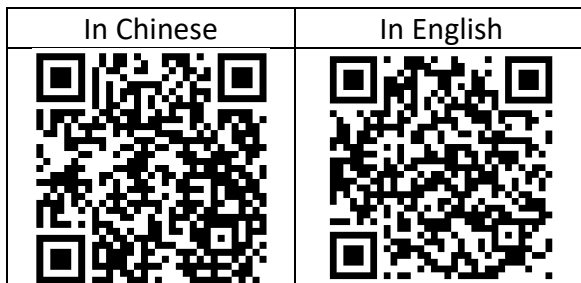

Target: Primary teachers and parents

Abstract of the Movie:

Teacher of HHCKLA Buddhist Wong Cho Sum School appreciated that the free trial version of Kahoot is adequate for teaching purposes and she recommended that parents design some questions for their children in revision. The interface of Kahoot allows four different types of assessment: 1) Sentence restructuring; 2) Multiple choices; 3) True / false questions; 4) Text entry. We should be aware of the capital letter / small letter in the text entries. We should avoid providing ambiguous choices. The teacher suggests not more than ten questions each time. Kahoot would provide feedback for teachers to assess the performance of the student's answers.

Advice for the Post-movie Activities:

1. View the YouTube movie to understand how to use Kahoot:

2. Register / sign up the webpage of Kahoot:

3. Set up your Kahoot game with the questions provided by the attachment and play the trial game with your children or students.
4. Design games for children or students to revise their work in a fun way.
