

Title: Learning English when Tour Outside
(Learning English with your kid on tour)

Target: Junior primary children and their parents

Abstract of the Movie:

Ms. Chan May-kuen, Sylvia, the Principal of Ying Wa Primary School, advised parents to attract their children with photos prior to their visit at the weekend. Parents may also accompany their children to search for information in English they are going to visit. Parents and children should explore some interesting things and search online for their further information after taking photos of them during the visit. Parents and children can also create poems or metaphors with their surroundings. That may be an interesting way to practice English.
